

## **Penrith Players Theatre**

### **Health & Safety at the Playhouse**

#### **To all members, volunteers and helpers**

At the request of our insurance company your Council are updating our health and safety policies, risk assessments and procedures relating to the Playhouse.

It is important that all members and volunteers have access to these policies and so they have been uploaded onto the Players website where they can be easily found..

The website can be accessed at: [www.penrithplayers.co.uk](http://www.penrithplayers.co.uk) and follow the link to 'about' and 'policy'.

Whilst many of the jobs and activities at the Playhouse do not involve any particular risks there are others such as working at height, lifting and carrying and back stage work where care must be taken to ensure safe working procedures. Other tasks involve statutory regulation eg. Child protection policies which must be followed.

**Your Council takes health and safety requirements and legal procedures very seriously and requests that all members should read and study those policies and procedures which are relevant to their activities at the Playhouse.**

**Your full cooperation in this very important matter is requested.**

**M. C. Head ( Chairman )**

**January 2015**
